

Student Enhancement in a European Dimension

Project Motivation and Goals

This project is closely connected to UCIIM's ongoing contribution to Distance Learning Education (D.L.) in schools.

Through this initiative, UCIIM also aims to achieve the following:

- **Broaden students' Knowledge and Skills in Distance Learning Education in a European dimension;**
- **Stimulate young Europeans to reflect upon their cultural roots and on the future of Europe.**

Characteristics

- Closer relations between Italian and other European classes;
- School visits of WEB experts;

- School visits of experts in combined studies competences;
- Students work together on combined studies of a learning unit. The unit will be in three languages and will focus on the following topic:

THE ROOTS OF EUROPEAN CULTURE:

- 1. The Jewish-Christian Heritage in literature, arts and music;**
- 2. The Classical Heritage;**
- 3. The development of a scientific perspective.**

UCIIM will also post the student's work, thus making it available to subscribers.
